

March 23, 2020

Dear Customers and Vendors,

Farmers Copper Ltd. will remain open and does not currently expect any disruptions in supply or service due to the COVID-19 virus. We are considered an Essential Business because of our continuous support for the Energy, Transportation, Logistics, Critical Manufacturing, Chemical, and Defense Industrial Base as defined by the US department of Homeland Security. Farmers Copper Ltd. and its employees will be required to maintain normal work schedules. You can follow this link to see the full documentation of the [Critical Infrastructure Sector](#).

We care tremendously for the health and safety of all our customers, vendors, employees and associates and in response to COVID-19, Farmers Copper is taking the following actions:

1. All Sales Representatives and Purchasing Staff have started working remotely.
2. All remaining staff that cannot work remotely have been relocated through the office, following the recommendation of social distancing.
3. Split shifts have been implemented in the warehouse to decrease social interaction.
4. All visitations to Farmers Copper from Vendors, Customers and or any outside personnel have been cancelled.
5. Cleaning and sanitizing on all touch surfaces and common areas has been increased in frequency and notices for employees to wash their hands and maintain good hygiene have been posted.

Management will continue to monitor the situation and take precautions as new regulations come into play. We will send out any necessary updates but feel free to contact us at any time.

Wishing you the very best of Health!
Sincerely,

The Farmers Copper Family
